

## Areas of Recap:

Research skills  
Mood boards  
Design specification

Students to revisit artist research skills to use for inspiration.

Practical skills and knowledge of key textiles techniques including block printing and batik

## Skill development : surface pattern techniques

Development of skills to produce samples of block printing and batik

Bauhaus artists

## Skill development : Embroidery and fabric development

Development of skills in embroidery and fabric manipulation

Block printing, batik and appliqué

## Skill development : Design ideas

Construction of a bag using block printing, batik and appliqué to embellish and enhance fabric when constructing a bag

Developed bag design ideas

## Skill development: Decoration

Application of skills using block printing, batik and appliqué to embellish fabric

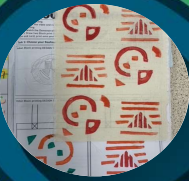

Year 9  
approx. 18  
lessons

# KS3: Year 9 Textiles World cultures presentation board

## Artist research

Detailed profile of Bauhaus artists identifying the key features of their work.

## Product Analysis

Understand how detailed analysis of existing products supports design development

## Methods of changing the appearance of fabric

Development of key textiles techniques pattern including block printing and batik

## Making and evaluation

Understanding the manufacturing processes and evaluating the finished product using technical language and key terms

## End Of unit assessment based on NC descriptors

Design investigation  
Design development

Make

Evaluate

Technical knowledge
