

Year 7

Year 7 Transition

What do you already know about Geography?

Our Place in the World

Knowing your place in the world, whilst developing a wide range of key geographical skills needed to navigate our world.

Weather and Climate

Why does it rain? Where does it happen?

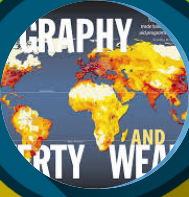

Weather and Climate

What is our climate like?

Extreme weather – How does it affect us? Is it happening more often?

Measuring and recording our own micro-climate weather report.

Poverty and Pennies

Some countries are poorer than others. Who are they? Is it fair?

How do we measure poverty?

Poverty and Pennies

It is right to support people who live in poverty.

How can poor countries move out of the poverty cycle?

Physical Geography

How does erosion sculpt our earth?

Physical Geography

Rivers and coasts create amazing places. Headlands and bays, sea stacks and waterfalls.

The Climate Change Hoax?

What is climate change? Is it a 'hoax'?

Look at different perspectives on climate change; Donald Trump V Greta Thunberg

The Climate Change Hoax?

Which countries are causing climate change? Which countries are impacted the most? How can we manage it?

To Year 8 ...
