

## **Numeracy Challenge**

2017 is a prime number - the first since 2011, and the last until 2027

Today's Challenge is to fill the blanks in the following equation, so that it makes arithmetical sense:

10 9 8 7 6 5 4 3 2 1 = 2017 You can use any of the basic mathematical operations, +, -, x,  $\div$ , and as many brackets as you like.
